Still the Slaughter Sale Goes On

And so we say we have none of the time worn reasons for putting on this sale. But there is reason for this sale—an honest, sincere reason. No matter how much business we are doing, we want to do more.

We rely upon this sale to attract many persons to this store, feeling confident that once they begin to get acquainted with this store and our methods we can soon count them permanent customers.

We want our many friends and patrons to get the benefit of these money saving prices.

And so you see, the object of this sale is not to make money, but to either make new friends for this store or draw the old ones closer.

An Honest Sincere Sale Offering

Genuine saving opportunities. Come and share in its benefits.

Cheap Lumber

There is quality in lumber, do not forget that. Poor lumber means a cold crude house, difficult to live in, difficult to rent, and difficult to sell. I carry cheap lumber suitable for some purposes, but the kind you want in your house I make a specialty of. My best grades I store in weather proof sheds. Did you ever consider how much your carpenter's time cost you to work up poor lumber. I am not at all versing any cheap sale but I sell cheap always. Quick sales and small profits is my motto. Have you seen that shiplap I am selling at \$20.00 per M? Have you seen those boards at \$18.00 per M? I carry a complete stock of lumber. Anything you want you will find in my yard. No cash deposits required. You get what you see and buy and both quality and satisfaction is guaranteed.

If you contemplate building, call and see me. I can figure on that plan and tell you what it will cost any time.

Psychine
Made Her
A Robust Child

It is not necessary for us to speak any words of our own, for the facts given below are strong enough to convince the most skeptical as to PSYCHINE'S power to restore health. Mr. John Evans, of Victoria, writes: "When Nellie was about 4 years of age she had wasted away so much that she looked like a little skeleton. The doctor treated her for 3 months, but the child got worse, and the doctor and he could do nothing more. We called in another doctor who told us every thing had been done and that the child would never live. We decided to take the little thing to Montreal where I was a resident. We were filled with pain at that time and would have undergone an operation if we would have been in the time. The next day he came down from Montreal and, after seeing her, but the operation was a failure, as he was unable to get any more out of her. "We were disappointed, and felt that the little Nellie was not going to get better, but a waerent to let her suffer any. At this time we heard what a wonderful thing PSYCHINE was for the lungs. We had been reading some of the advertisements in the papers, and we had been cured through PSYCHINE. We bought a bottle and gave it a trial. The first day we saw a difference. Gradually the little girl began to eat and by the time we had used four bottles, she was quite well. It was two years ago that we used it, and she is now a robust child. We have a great deal to say for it. We firmly believe that little Nellie would never have lived if we had not heard of PSYCHINE. We would be pleased to answer enquiries at any time."

A Pill That is Prized. There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with so much favor as **Parmentier's Vegetable Pills**. Widespread use of them has attested their great value, and they need no further advertisement than this. Having firmly established themselves in public esteem, they now rank without a peer in the list of standard vegetable preparations.

The Elements

Of the seventy-one elementary substances of earthly matter, enumerated by chemists, thirty-two are known, certainly to exist in the sun's atmosphere, ten or fifteen more can probably be traced there, and there are only six or eight as to which, in the present state of our knowledge, there is negative evidence that they are not present there. The elements whose presence is proved comprise many of those which are the most common in the composition of the earth, and the fact is pretty firmly established that matter is the same throughout all space, from the minutest atom to the most distant star.—Chicago Examiner.

"I don't quite see the point of that remark of yours," said the grocer as he tied up the package of sugar.

What remark was that? asked the customer.

"You just remarked that some men had an off-hand way of doing things, and you wished I was one."

"Yes; I wished to remind you that your hand was on the sugar when you switched it."

Minard's Liniment for every ailment

"He used to kiss me every time we passed through a tunnel before our marriage," said the little woman with sad reflections.

"And does he do so now?" asked her bosom friend.

"No; he takes a drink."

Some persons are more susceptible to colds than others, contracting derangements of the pulmonary organs, the slightest causes. These people always have at hand a bottle of Bickel's Anti-Consumptive Syrup, the most effective sovereign remedy for coughs, catarrh and inflammation of the lungs. It will effect a cure no matter how severe the cold may be. You cannot afford to be without a remedy like Bickel's, for it is the best.

Patient: Doctor, do you know that this is a pound a day for me?"

Doctor: "Yes; I am a friend of the proprietor."

THE MOTHER'S AID AND CHILDREN'S FRIEND

Baby's Own Tablets are not intended for babies only. This medicine is intended for children of all ages. It is gently laxative and comfortable. Cures indigestion and other stomach troubles, constipation and simple fevers. Guaranteed to give quick results. Mrs. Paul Carter, Erie, Mich., says: "I find Baby's Own Tablets the best medicine I have ever used for children. I have used them for most of the troubles that afflict little ones (and have not known them to fail). Mothers should always keep them on hand. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

"I want to look at some cases," said a magnificent young man to the shopkeeper, "and I'm in a great hurry."

"Yes, sir; yes, sir," responded the shopkeeper, very much flustered. "Here, James," to the shop assistant. "This gentleman wants some hurry."

A Prime Dressing for Wounds.—In some factories and workshops carbolic acid is used for use in cauterizing wounds and for other purposes. For better to keep on hand a bottle of Dr. Thomas' Eucalyptic Oil. It is just as quick in action and does not scar the skin or burn the flesh. There is no other Oil that has its curative qualities.

Second Lady: "Push! That's not the brick-room. That's a gentleman the bride gifted six months ago."

CURED IN ONE MONTH

If every woman who has Kidney or Bladder trouble, could go to Davisville, Ont., and talk to Mrs. A. Simpson, they would do just as she did, take Gin Pills and cure themselves.

"For 14 or 15 years I had Kidney or Bladder trouble, suffering at times in pain. I doctored continually but nothing gave me permanent relief until I was persuaded to try Gin Pills. "Within a couple of days I received great relief and after taking one box, was completely cured."

Last week a farmer went into a druggist's shop in the town of M. to purchase a ready-made suit of clothes. The assistant showed him several suits, but he was finding it difficult to effect a sale. The proprietor at the other end of the counter, seeing his assistant's dilemma, came to his aid.

"This is a really ripping suit of clothes," he said.

"If it is," replied the farmer, "you may keep it. I want clothes that won't rip."

A Calamity

"When I grow up and marry, mother, will I have a husband like pap?" asked Mary.

"I hope so, dear," said mother. "And if I don't marry, will I be like Aunt Sue?"

"I hope so."

"Dracina," said Mary, as she turned away, "what a fix I'm in."

A stout woman entered a crowded car and took hold of a strap directly in front of a man seated in the corner. As the car started she lunged against his newspaper and trod heavily on his toes. As soon as he could extricate himself he rose and offered her his seat.

"You are very kind, sir," she said, panting for breath.

"Not at all, madam," he replied. "It's not kindness; it's simply self-defence."

DODD'S KIDNEY PILLS CURE KIDNEY DISEASE OF EIGHT YEARS' STANDING

That's What They Did for William O. Cain, and Now He Says: "Dodd's Kidney Pills Are a Great Medicine."

Mapleton, Albert Co., N.B. (Special)—"When I began taking Dodd's Kidney Pills I got relief right away. I have found Dodd's Kidney Pills a most reliable medicine. I have been afflicted with kidney trouble and highly respected in this neighborhood. And Mr. Cain, a very successful business man, for so emphatic a statement. For eight years he was a sufferer from kidney disease, and did not seem to be able to get relief.

"Why, I was so bad," Mr. Cain goes on to state, "and my kidneys bothered me so that if I would go to sleep anything of the ground I would roll. But Dodd's Kidney Pills cured him just as they have cured thousands of other sufferers all over Canada. They never fail to cure Kidney Disease of any kind. Not once, but scores of times, they have vanquished the 'Bright's Disease' most deadly of all kidney troubles, while every day brings stories of cures of Rheumatism, Lameness, Dropsy and Heart Disease from various parts of the Dominion. Other kidney medicines may cure. Dodd's Kidney Pills cure."

"Honestly, my son," said the millionaire to his boy, "the only policy is the best policy."

"Well, perhaps it is," said the youthful philosopher; "but if I strike you you have done pretty well nevertheless."

DR. MORSE'S INDIAN ROOT PILLS

Many common ailments which are very distressing, and which all arise from the same cause—a system clogged with impurities. The Pills cause the bowels to move regularly, strengthen and stimulate the kidneys and open up the pores of the skin. These organs immediately throw off the accumulated impurities, and Biliousness, Irritability, Liver Complaint, Kidney Troubles, Headaches, Rheumatism and similar ailments vanish. Dr. Morse's Indian Root Pills cure.

SAVE DOCTOR'S BILLS

Stray Animals Ordinance

The Department of Agriculture, Edmonton, is sending out copies of the Stray Animals Ordinance to persons who have stray animals on their premises for their guidance. As the Ordinance is not very well known and the public is not aware of the procedure which should be taken in case of stray animals on their premises, we publish the following extracts for their guidance although a copy of the said Ordinance can be obtained by writing the Department.

"Any person who finds he has on his premises or in his land, herd or flock, any stray animal (other than a stallion or a bull) the owner of which is unknown to him, which cannot be driven away from said premises, land, herd or flock within ten days after such owner has been notified as provided in section next preceding shall at once notify the brand reader who shall prepare a notice to the effect that such animal is on the finder's premises or in his land, herd or flock (as the case may be) which notice shall contain the name, location and post office address of the finder and a full description of the animal with all its marks (natural or artificial), color and probable age, with any other marks which may lead to its identification, and forward such notice to the Department and to the recorder of transit at Medicine Hat and such notice shall be published for two consecutive issues in the supplement to the official gazette, and a copy of each issue containing such notice shall be forwarded to every postoffice, to every post of the Northwest Mounted Police, to every justice of the peace, and to every newspaper in the province, and a copy of the same shall be forwarded with every copy of the said gazette." 1909, c. 5, s. 15.

"In addition to the notice forwarded for insertion in the said gazette, the finder of any such animal as is described in the first subsection to this section shall cause a copy of the notice, as prepared by the brand reader, to be inserted in three successive weekly issues of the nearest newspaper and any expenditure (not exceeding the sum of \$1.00) made for such advertising shall be reimbursed to the finder by the owner when the animal is claimed or, if not claimed, by the justice after the sale of such animal upon proof of such expenditure having been made." C. O., c. 5, s. 16, 1909, c. 5, s. 17.

"The Minister shall appoint as brand readers such competent persons as may be necessary to give an accurate description of any stray such as is called for in subsection 1 of this section, and such brand reader shall be entitled in each case to a fee of \$2 and mileage, which shall be paid to him by the finder, who shall be reimbursed by the owner when the animal is claimed, by the justice out of the proceeds of the sale of such animal." 1909, c. 5, s. 18.

The Hog Question

Hogs this week passed the ten dollar mark. Wouldn't the farmer like to have a few hundred pounds of this high priced animal just now? There is a great scarcity of hogs all over the continent, and undoubtedly it would be profitable for the farmer to raise more of them.

The greatest opportunity is presented in the production of the hog, according to market authorities. St. Paul market men estimate that there will be a decrease of half a million animals in the receipts for 1910, and that not more than 700,000 will come into the yards there, compared with 1,133,492 in 1908.

It is believed that the next few years will witness a return to larger production, but it is unlikely that there will be any low prices for some time to

Seeding the Crops

It can safely be said that wheat seeding is now general throughout the country. Nearly every section of the West has reported farmers busy planting. It is difficult to set a definite date for the beginning of seeding in any year, but the first week of April may be mentioned this season. There has been considerable rain in most districts, and it is felt that conditions on the whole are very favorable.

Those who are always looking for trouble will find this out by making predictions and guesses regarding too dry a summer, rust, hail, frost and everything else this side of Halley's comet. The only thing we have to say, however, is that seeding conditions are favorable and the season is early, so that with a long season ahead of us the optimist has the advantage in his calculations.

The farmers have had a great opportunity for doing their spring plowing and that is an important factor. Commercial.

The evenings are growing long and cold. An easy chair and a paper beside the heater begin to look good. It is time to decide what paper to take; we say papers, for the time is past when the farmer is satisfied with one periodical in his home. There is an offer that will interest you now, and meet the needs of readers of both sexes, young and old, during the long winter months when the papers have become family friends.

There is the **Weekly Free Press and Prairie Farmer**, with the news of the world and live departments for the farmer, his wife and the young people; **The Nor-West Farmer**, issued twice a month, the recognized farm paper of the west; **The Western Home Monthly**, full of bright stories and interesting information for every member of the family.

These three publications, including your own home paper with all the local happenings, four papers in all for \$3 a year.

Find enclosed the sum of \$3.00 for which send the papers mentioned below to the following address or addresses—

P. W. Toews and wife have returned from their trip in the States. They were as far south as the Gulf of Mexico but claim that Sunny Alberta beats it all. Mr. Toews is again busy in his blacksmith shop.

On the morning of the first of April most of our private telephone subscribers were called to the phone by a general ring only to find out what date it was. Such fun is somewhat out of place, but some good people can't help but indulge in it occasionally.

The spring sowing is progressing rapidly in this part. Now is it not the weather for it?

Rev. P. Baerg and wife are expected home this week from Manitoba. Mr. David Lwen, an old Manitoba pioneer, will come with them to live with his children here in Alberta.

John R. Loewen has got a well drilled. The well is only 65 feet deep and has plenty of good soft water.

The repair shop of Toews Bros. is now ready and in operation. All kinds of repairing is done here at reasonable rates.

Crops for Sheep

The wise shepherd in planning his crops for the year has regard to the needs of his flock. He recognizes the great advantage of providing not only a variety of foods but a succession of succulent crops the season through. Bulletin No. 12, "Sheep Husbandry in Canada," published and issued free by the Live Stock Branch at Ottawa, takes up this subject in a practical and thorough manner. Under special crops for sheep it deals with clover, alfalfa, vetches, rape, cabbage, turnips, mangels, corn and the several classes of grain. Each is treated separately in regard to method of cultivation and manner of feeding. Dealing with vetches the bulletin says:

"Vetches, or tares as they are also called, make excellent fodder for sheep, either as a soiling crop or as cured hay. This crop much resembles peas in habit of growth and requires about the same kind of cultivation. Its vines are more slender than the pea vine and stand up better when grown with a stiff variety of oats. Vetches are extensively grown for sheep feed in Great Britain, and to some extent in Canada for the same purpose. The winter, while raising sheep, always grow a small area of tares with oats for silage the sheep flock, and in case of a shortage of clover vetches were cured for hay. The crop being fine in vine and very leafy is much relished by sheep and constitutes a rich diet."

"Two varieties of vetches are grown for fodder. The common vetch is the chief sort cultivated, but the hairy variety is receiving some attention. The latter produces the heavier yield, but so far the seed having to be imported is very expensive and few care to bother with it."

"The soil for vetches should be clean, mellow and rich. The seed may be sown in drills or broadcast. A good seedling for either soiling or hay is about three pecks of vetches and four pecks of oats per acre. The crop being fine in vine and very leafy is much relished by sheep and before the seed commences to ripen. For soiling the crop may be hauled to racks, or be distributed on the sod of a pasture field as soon as cut, or it may be allowed to wilt in the swath for a few hours. Vetch hay is made in much the same manner as clover or timothy is handled. Vetches may be pastured by sheep, but this is a wasteful practice, as much of the crop is destroyed by tramping."

Sheep raisers who do not already possess a copy of this bulletin would do well to order one from the Live Stock Commissioner at Ottawa.

Hats Off to This Man

In every newspaper we pick up a sure to find a lot of gush about the man behind the counter and the man behind the gun; the man behind the times and the man behind his rent; the man behind the whistle and the man behind the cars; the man behind the codak and the man behind the bars; the man behind his whiskers and the man behind his fist. But they've skipped another fellow of whom nothing has been said—the fellow who is even, or a little way ahead; whose always pays for what he gets; whose bills are always signed—he's a blaméd sight more important than the man who is behind. All we editors and merchants and the whole commercial clan are indebted for existence to this honest fellow man. He keeps us all in business and his town is never dead; and so we take our hats off to the man who is ahead.

MRS. ANDERSON

Tells How After Giving Up Hope, She Was Cured of Dandruff

After reading this straightforward statement of Mrs. Elizabeth E. Anderson, of Meacham, Ont., go to Chambers' Drug Store and get a large bottle of Parisian Sage for only 50 cents, and if it doesn't do for you what it did for Mrs. Anderson, he will give you your money back. Just read this letter, it's worth your while.

"I had given up hope of ever being cured of dandruff, when I purchased a bottle of Parisian Sage. It has entirely removed the dandruff, and has started a growth of new hair, and all this after having been troubled for 15 years. I cheerfully recommend Parisian Sage."

Parisian Sage cures dandruff because it gets right down into the roots of the hair and kills the thousands of pernicious dandruff germs. Since the introduction of Parisian Sage into Canada, it has been in demand by thousands of up-to-date society women. Parisian sage will turn harsh, lustreless, ill-looking hair into long, lustrous hair in a few days. It is a delightful and invigorating dressing, contains no dye or harmful ingredients and is not sticky or greasy. The girl with the autumn hair on every package.
